

LONG TERM CARE COORDINATING COUNCIL (LTCCC)

San Francisco's Long Term Care Coordinating Council (LTCCC) advises the Mayor and City on policy, planning, and service delivery issues for older adults and people with disabilities to promote an integrated and accessible long-term care system.

Long Term Care System refers to the continuum of home, community-based, and needs of people with limitations

LTCCC Housing Policy Statement

(adopted February 8th, 2023)

Older adults and adults with disabilities have a right to live in safe, accessible, and affordable housing. The Long-Term Care Coordinating Council (LTCCC) recognizes that for older adults and adults with disabilities, housing is one of the strongest predictors of access to care and treatment, health outcomes, and longevity. We also recognize the unique needs of historically marginalized populations, such as older adults and people with disabilities who are BIPOC and/or LGBTQ+, populations that disproportionately experience housing insecurity and/or homelessness as they age. While the focus of the LTCCC is on the long-term care system, we support initiatives, workgroups, and City departments in their efforts to increase access to safe, accessible, and affordable housing.
