### **Background**

Title IIIB of the Older Americans Act provides funding for a series of supportive services programs, which includes the Chore, Homemaker, and Personal Care Services programs. Title IIIB services are designed to address functional limitations in older adults with a goal of maintaining health and independence while living at home. Delivery of the Chore, Homemaker, and Personal Care services promotes older adults' ability to maintain the highest possible levels of function, participation and dignity in the community. The Department of Disability and Aging Services groups these three programs together under one identifier: the Short-Term Homecare for Older Adults program.

The Short-Term Home Care for Older Adults Services are to be distinguished from the State of California's In Home Supportive Services (IHSS) program. While the programs have some similarities, the differences between the two include program authorization and scope (Federal vs State), eligibility criteria, and specific types of services provided.

Funding level for the Short-Term Homecare for Older Adults program is determined on an annual basis with the release and allocation of Area Plan contract from the California Department of Aging. In addition, The California Department of Aging usually releases one or more Amendments to its Area Plan contract each year, providing additional funding arriving through new funding initiatives or the release of unspent funding in previous fiscal years. In February 2022, DAS was notified of additional funding through Area Plan contract Amendment 3. This includes \$41,025 in one-time-only funding for IIIB services.

**Services to be Provided**

Short-Term Home Care for Older Adults consists of three distinct services: Chore, Homemaker, and Personal Care services. The California Department of Aging defines these services as follows:

- Chore Services Assistance such as heavy housework, yard work or sidewalk and other home maintenance for a person.
- Homemaker Services Assistance such as preparing meals, shopping for personal and household items, managing money, using the telephone or doing light housework.
- Personal Care Services Personal assistance, stand-by assistance, supervision or cues (such as with eating, bathing, toileting, transferring in/out of bed/chair, walking, dressing, grooming).

Grantee will administer all aspects of the program including intake and eligibility determination for clients, scheduling of services, and delivery of services in a professional and effective manner.

For more specific information regarding the services to be provided, please refer to the attached Appendices A1, A2, and A3.

**Modification**

The additional funding for this current fiscal year will be used to support costs for three on-call elder care workers to provide client services. The staffing boost will allow Self-Help for the Elderly to provide an additional 1,080 hours of Short-Term Home Care services this year to program participants. This increased program capacity will help meet demand and shorten wait time for services.

**Selection**

Grantee was selected through Request for Proposals #926, which was competitively bid on April 7, 2021.

**Funding**

Funding for these grant agreements is provided by 69% State, 14% Federal and 17% County General Funds.
