

The SF Connected Program offers **FREE** computer tutoring and support to older adults and adults with disabilities. Our mission is to bridge the digital divide and overcome social isolation through technology. We have installed over 200 touch-screen computers and provided over 90,000 hours of training in different senior and community centers across San Francisco. Funded by the City and County of San Francisco and managed by the Department of Disability and Aging Services, SF Connected is a continuation of the Broadband Technology Opportunities Program. A list of the different Tech Labs is available on the reverse side of this page.

You may call us at (415) 355-3555 for more information or visit www.sfconnected.org
